CITY OF KINGSTON, N. Y., TUESDAY EVENING, JANUARY 13, 1925.

PRICE THREE CENTS.

## City Hospital Annual Meeting

Dr. Chandler and Stern and George Burgevin Elected Members of the Board of Managers—Annual Reports Received From Officers.

Dr. George F. Chandler, Dr. A. A. Stern and George Burgevin were elected members of the board of managers of the Kingston City Hospital at the annual meeting held at the hospital Monday evening. Judge James A. Betts, president of the board, presided at the meeting, at which time the annual reports were read and filed. The reports of the officers followed:

To the Members of the City of Kingston Hospital:

As directed by the by-laws of this institution, I respectfully submit the annual report of its condition and its work up to and including December 31, 1924. The State Board of Charities has changed its fiscal year to conform to the calendar year instead of closing its fiscal year on June 30th, so that the financial report of the treasurer covers the year 1924, while this report covers in a general way the eighteen months from July 1, 1923, to December 31, 1924, both inclusive.

We urge again upon our citizens and physicians the desirability of joining our hospital. The payment of \$20.00 by any physician and the payment of \$25.00 by any other citizen constitutes any person a life member of this hospital with a right to take an equal part with any other members in the hospital work, also the payment of \$10.00 by any person will constitute that person a member of the hospital for one year with the same privileges as are enjoyed by life members.

The president and managers urge that a continued effort be made to increase the number of members of this corporation.

We have received since our last report from C. Hillebrandt Dry Dock Company a donation of \$100.00.

Subscriptions have been made to our general Building Fund of the sum of \$1,202.23.

There have been added since our last report to our Endowment Fund a donation from William H. Brigham, in memory of his deceased wife Susan S. Brigham, the sum of \$1,000.00 and from the estate of Georgia Deudney the sum of \$100.00.

We have received legacies as follows: From the estate of Sarah B. Reynolds \$787.95 and from the estate of Anna Hecker Freer \$1,000.00.

Since our last report the addition to what we had called the part of our building containing the Men's Ward and the Women's Ward has been entirely completed and has for some time been occupied. It is very gratifying to be able to state to the members of the Hospital Association and to our charitably inclined and public spirited citizens who are interested in its growth, development and success, that the entire expense of such addition has been met and fully paid, either by contributions which have been acknowledged or by the surplus of receipts over expenditures from our hospital. Accomplishing such a result with no great effort to solicit funds for the purpose and with the entire absence of anything approaching a "drive" for the purpose of raising such funds is very pleasing, and the thanks of the managers are earnestly and sincerely given to all of those persons and corporations who have contributed any amount, either large or small or in labor to such a desirable result. We now have a large, well equipped hospital building, which we think compares favorably with any institution of its size in this state, and our friends are invited to inspect the same during the visitors' hours of the hospital. We now have over ninety beds in the hospital.

The mortgage indebtedness on the hospital property has been reduced to \$6,000.00.

Attention is called to the very full and complete report of our treasurer which will be submitted with this report and which explains our financial condition in detail.

This addition to the hospital and the larger number of people treated there, has called for an increase in the number of nurses and student nurses have responded to such call and we have a very large corps of bright, intelligent, capable, young ladies sitting themselves for the position of nurses. Such an increase calls for increased accommodations for the nurses. We are lacking in sufficient accommodations for our nurses. A new nurses' home is urgently needed, together with some additions or changes in our present building. The managers are contemplating and are very desirous of erecting a new nurses' home, modern, sanitary and well equipped for the patient nurses who toil with our patients in the hospital. These nurses consecrate their lives to such a noble calling, and such necessary workers should have comfortable surroundings when off duty at the hospital. Consideration for the erection and equipment of a new nurses' home would be very gratefully received by our board of managers.

The report of the secretary of the medical and surgical staff of the hospital, Dr. A. A. Stern, for the year ending December 31, 1924, shows that during that time there were sixteen hundred twenty-four patients admitted to the hospital, and there were one hundred thirty-nine deaths during the same time. There were thirty-eight patients in the hospital January 1.

## Submarine Crew Prisoners When Vessel Grounds

Went Ashore Off Massachusetts in Dense Fog—Coast Guardsmen Beaten Back in Attempt at Rescue—Explanation of Weak Radio Signals.

By Telegram to The Freeman.  
Chatham, Mass., Jan. 13.—The rescue of the 34 officers and crew of the U. S. Submarine S-19 seemed assured this afternoon with the arrival of the revenue cutters Tampa and Acushnet. It also appeared probable that the submarine would be drawn into deeper water before she had suffered serious damage. The two cutters are standing by and they will have the assistance of the navy tug Wandank when the rising tide makes conditions favorable to towing her off the shoal near Nauset Beach light.

The crew of the submarine have been prisoners in their stranded vessel more than eight hours from the time she went aground today during a dense fog and heavy weather. Coast guardsmen who attempted to reach the submarine were beaten back and their craft narrowly escaped destruction. The weakness of radio signals coming from the submarine is attributed to a desire on the part of the officers to spare the batteries and also to the fact that since the submarine has been throughout the morning washed by huge waves her antenna must be under water.

## Democrats Show Anger at Speaker

Minority Almost Ignored, They Claim, in Make-up of Senate Committees—Chairmanships for All Except Three Republicans.

By Telegram to The Freeman.  
Albany, N. Y., Jan. 13.—Democratic leaders of the Assembly today were up in arms because Speaker McGinnis only included three members of their party on the ways and means committee, composed of 15 members.

The ways and means committee is the most important in the Assembly, it passes upon all measures providing for the spending a state's money. Last year there were four Democrats on the committee.

"The placing of only three Democrats on the important ways and means committee when more than one-third of all the members of the Assembly are Democrats is a burlesque on Democratic government," Minority Leader Maurice Bloch declared.

Senator Walter W. Westall, Westchester Republican, today informed Senator Knight, Republican leader of the upper house, that he would not serve as chairman of the Senate committee on villages.

All but three of the 29 Republican senators were named chairman of committees. The three who did not receive chairmanships were Senators Wales of Binghamton, Williams of Troy, and Wendell of Amsterdam. There are only 26 committees in the Senate.

## Lost in Storm on Mountain Peak

By Telegram to The Freeman.  
Denver, Colo., Jan. 13.—A searching party set out today to hunt for Herbert Sorland, employee of an inn who is lost on Long's Peak where a terrific storm is raging in temperature of 50 below zero.

Sorland was a member of a rescue party that was hunting for Walter Kiener and Miss Agnes Vailie, secretary of the Denver Chamber of Commerce.

Miss Vailie was injured in a fall and frozen to death. Kiener later stumbled into a timber line house, half frozen and reported he was compelled to abandon Miss Vailie.

Miss Vailie, aged 37, was widely known in Denver and Colorado. She was the daughter of F. O. Vailie, a well to do retired business man. She had long been prominent in mountain climbing expeditions in the Rockies.

## Bishop Brown Seeks Review

By Telegram to The Freeman.  
Cleveland, O., Jan. 13.—President over by Bishop W. A. Leonard, of the diocese of Ohio, a court of review consisting of bishops of the Protestant Episcopal Church, was constituted here today to pass upon the appeal of Bishop William Montgomery Brown, retired bishop of Arkansas, and known as the "Bishop of the Bombardier," from the judgment of the trial court which last spring found him guilty of teaching doctrines not in accordance with those taught in the church.

Statements upon the retired churchman have not yet been passed.

George C. Wolcott Arrived.  
George C. Wolcott was arrested Monday afternoon by Officer Harman on a charge of parking his automobile in front of the Cornell engine house. The hearing was adjourned until later.

Arthur Dittie Reported to the Police that Monday evening his auto had struck Thomas McNight on North Front street. McNight, an ear could be learned, was not badly injured.

## Institution at Napanoch Praised

In Inspection Report Issued by State Commission of Prisons—Defectives' Home a Success.

By Telegram to The Freeman.  
Albany, N. Y., Jan. 13.—The success of the state institution for mentally defective delinquents at Napanoch has distinguished the institution as a scientific contribution to modern penology, it was said in an inspection report issued today by the state commission of prisons.

"As it is the first separate institution for such defectives ever established," the report declares, "the management has had to blaze a way and adjust its place and function in the correction and penal system. Standing half way between the prison and custodial institution, its problems have been difficult and complicated."

Investigation of the previous records of the inmates disclosed, the report continues, that relatively few of the commitments were direct, for which various reasons are assigned.

"The courts hesitate to change from old formulas," the committee believes. "The judges are trained in the legal doctrine of responsibility, and criminals look alike to them. Unless the delinquent is an idiot or a low-grade imbecile evident to the view, minds trained to exactitude and facts will not take chances with legal rights except on the clearest evidence."

## National Banks Held Elections

The national banks of Kingston held their annual elections today with the following results:

**First National Bank.**  
President, Edward Coykendall; vice president, Frank Coykendall; cashier, Louis Beeres; directors, Edward Coykendall, Frank Coykendall, Harry H. Fleming, J. Graham Rose, Nicholas Stok, J. T. Johnson, Thomas C. Coykendall, Peter E. Schoonmaker and Louis Beeres. A semi-annual dividend of 5 per cent was declared in December, payable January 1st.

**Rondout National Bank.**  
President, James F. Dwyer; vice president, Joseph M. Herbert; cashier, Henry Fagher; directors, James F. Dwyer, Joseph M. Herbert, W. F. Rafferty, William O'Reilly, Merton L. Goldrick, Dr. Mark O'Meara, Walter N. Gill, John E. Weber, James A. Dwyer, John V. O'Connor, Morris Block and Henry Fagher. Teller, Fred Schoonmaker; bookkeepers, Fred J. Becker, James Snyder and Miss Ethel Skelton; stenographer, Miss Caroline Streble; counsel, Judge Walter N. Gill. A semi-annual dividend of 4 per cent was paid January 1st.

**National Uster County Bank.**  
Directors—Frederick J. R. Clarke, Garrett N. Oliver, James A. Betts, Rodney B. Osterhout, Martin Cantine, Albert E. Rose, Aaron Cohen, Ervin E. Norwood, John D. Schoonmaker. Officers—Frederick J. R. Clarke, president; James A. Betts, vice-president; Charles Snyder, cashier; Garrett N. Oliver, secretary to the board; LeRoy F. Port, teller; Paul Phelan, assistant teller; Samuel L. Drake and V. F. Brenn, bookkeepers. Edgar Brinkman, comptroller of the bank; John Henry, clerk; Lillian A. Wolf, in charge of special interest accounts. Charlotte R. Phillips, statement clerk; Grace L. Emerson, Christmas Club accountant; Beulah L. Tronson, secretary to president. Inspectors of election were Fred P. Luther, William F. Dedrick, William C. Dewitt, proxy holders, George B. Styles, Benjamin J. Winne. A dividend at the rate of 10 per cent per annum was declared and paid January 1st, 1925.

**State of New York Bank.**  
At the annual meeting today of the State of New York National Bank, Dr. N. Mathews was re-elected president. H. R. Brigham was elected vice president to succeed C. H. Schoonmaker, resigned. The following directors were chosen: George M. Beckman, H. R. Brigham, G. D. B. Hasbrouck, John H. Sax, Dr. N. Mathews, Selig Oppenheimer, A. B. Rose, C. W. Winne, Peter A. Black, Frank R. Matthews, C. H. Schoonmaker, Charles S. Wood, M. H. Herzog and Nicholas H. Horeboom. The inspectors of election were J. H. Briggs and Morris W. Elling. Russell P. Clayton was appointed cashier. The regular dividend of 5 per cent was declared for December and an extra dividend of 2 per cent payable for January.

## Second Bill Offered FOR INCOME TAX CUT

By Telegram to The Freeman.  
Albany, Jan. 13.—A bill providing for a 25 per cent reduction in the state income tax was introduced in the Legislature today by Assemblyman Philip Phelps, Republican of New York.

This is the second measure of its kind introduced at the present session.

Governor Smith and the Republican leaders are in accord that the income tax should be reduced. At the request of the governor it was cut 25 per cent last year.

McNight Hit By Auto.  
Arthur Dittie reported to the police that Monday evening his auto had struck Thomas McNight on North Front street. McNight, an ear could be learned, was not badly injured.

## Guess Whose Shadow This Is

A man prominent in civic organizations. If you don't know him you ought to.

Silhouette No. 18 was that of William J. Turck, president of the Kingston Trust Co. and owner of the Eagle Hotel and a lot of other things.

## Zita and Zucca at Shriners' Dance

Two Orchestras to Vie With Each Other in Furnishing Music at Big Armory Dance for Industrial Home Benefit.

The music committee of the Kingston Shriners' Association has secured the services of Zita's orchestra of ten pieces of Albany for the dance which will be held at the New York State armory on the evening of Friday, January 23. The Albany organization will vie with Zucca's ten piece orchestra of this city for popularity with Kingston dancers on that evening. Those who anticipate going are assured of the best of music as the local contingent will strive to outdo the visiting orchestra and the Albany musicians will try to lead the local musicians.

Negotiations are also under way by the entertainment committee for the best talent to be found in the larger cities for the evening. As soon as the entertainment is secured announcement will be made.

The ticket committee is more than optimistic. The 1925 dance promised to surpass anything ever held in the local armory and they anticipate a record attendance on January 23.

## Chamber Elects Three Directors

Charles A. Lasher of the Kingston Gas & Electric Company, Samuel J. Messinger, the Broadway butcher, and William A. Van Valkenburgh, the real estate and insurance agent, were elected directors of the Chamber of Commerce at the annual election Monday evening. This afternoon the board of directors met in annual session to elect officers and hear the reports of the officers of the board. On Wednesday evening the annual meeting dinner will be held in the lecture room of the Fair Street Reformed Church and a turkey dinner will be served at 6:30 o'clock. The speaker of the evening will be Colvin B. Brown, chief of the Organization Service Bureau, of the Chamber of Commerce of the United States. Zucca's orchestra will furnish music for the evening and Miss Mildred Messinger, contralto, will sing several solos.

## Meetings of Dairy League

A sub-district meeting of the Uster County Dairymen's League will be held at Gardiner January 24, at 1:30 p. m. Callahan's Hall and also at Accord at 7:30 p. m. January 24, in Grange Hall. The speaker will be Rush E. Lewis, and his subject will be "Cooperative Marketing."

At the Accord meeting an oyster stew will be served free to all.

## State Assembly Urges RIVERS AND HARBORS BILL

By Telegram to The Freeman.  
Albany, N. Y., Jan. 13.—The assembly today unanimously adopted a resolution by Senator William T. Byrne of Albany, calling upon congress to pass the rivers and harbors bill immediately with the deeper Hudson authorization included.

The rivers and harbors bill is scheduled for a vote in congress tomorrow.

Under the authorization a 25 foot channel would be dredged from the lower river to Albany to accommodate ocean going steamers.

Train Hurled by Snow.  
By Telegram to The Freeman.  
Tokyo, Jan. 13.—A large force of coolies are engaged in clearing out the passengers of a train hurled by snow during a heavy blizzard that has been raging in northeastern Japan, reports reaching here late today.

## High Praise for Lt.-Col. Chandler

His Successor Says Record of State Troopers Was Made Possible by Soundness and Justice of Principles on Which Chandler Organized Them.

By Telegram to The Freeman.  
Albany, N. Y., Jan. 13.—(Special.)—Lt. Col. George F. Chandler of Kingston, the organizer and former superintendent of the New York State Troopers, is given warm praise for his efforts in bringing that organization to its present state of efficiency by Major John A. Warner, the present superintendent, who has submitted his first annual report to the legislature.

In this respect, Major Warner wrote:

"The record which has been made by the New York State Troopers for the year covered in this report is one of which the people of this state may well be proud. This record has been made possible first of all by the soundness and justice of the principles upon which the department was organized and conducted by its first superintendent, Lieutenant Colonel George F. Chandler, and secondly by the whole-hearted enthusiasm with which every officer, non-commissioned officer and trooper has endeavored to conduct himself according to these principles."

## Petting Parties And More Speed

Thirty Bills Introduced in State Legislature to Carry Out Recommendations of Governor Smith Regarding Motor Vehicle Usage.

By Telegram to The Freeman.  
Albany, N. Y., Jan. 13.—The first of a series of thirty bills, carrying out recommendations of the executive committee which investigated conditions arising out of the enforcement of the new motor vehicle law, today were introduced in the Legislature.

All the Republican automobile legislation will be sponsored this year by Senator George R. Fearon of Syracuse, and Assemblyman Lewis G. Stapley of Livingston county, chairman of the Assembly Motor Vehicle Committee.

One of the measures would increase from thirty to thirty-five miles an hour the speed at which an automobile may be operated on state highways.

The anti-petting party bill would prohibit the parking of a car on the improved surface of a highway, except in cases of emergency.

"We don't want to interfere with love making by young couples but we don't want them to do it in a car parked on a state highway," Assemblyman Stanley said today. "Cars parked on highways at night have caused many serious accidents."

Another would prohibit the passing of a car on a curve or near the top of a hill. The passing of a car within fifty feet of a railroad crossing or on a crossing will be prohibited under another measure.

The carrying of luggage on the left hand running board of a car, projecting over the side of the fender would be made a violation of law. The sale of used cars would have to be reported to the motor vehicle bureau by the dealer within 48 hours after the sale was made.

## FATHER WANTED SON SENT AWAY TO INSTITUTION

John Francis Cole, 16 years old, was picked up by the police this morning on a warrant obtained by his mother, Mrs. Bridget Cole of 271 Second avenue, on a charge of being a disorderly child in not staying home. Later the mother wanted the lad given another chance but the father wanted him sent to an institution. Judge Robert G. Groves after talking the matter over with the boy's mother and the boy decided to give the boy another chance. The boy will make his home with his aunt, and the case was held open for two weeks. This disposition of the case did not please the father and he left the court room stating he would see a higher authority.

## CLUSTER REPRESENTATIVES ON IMPORTANT COMMITTEES

State Senator Bouton, Republican, representing this senatorial district in a number of the following committees: Public Health, Labor and Industry, Agriculture, Revision, and in chairman of the important Committee on Insurance.

Assemblyman Millard H. Davis of Ulster county has been appointed to the following Assembly committees: Internal Affairs, Affairs of Villages and Penal Institutions, which are regarded at excellent assignments for a first year member.

High School P.T.A. Meeting.  
Tonight at 8 o'clock the High School Parent Teacher Association will meet at the High School, William C. De Witt presiding. The speakers for the evening will be Dr. Michael and Mrs. Alfred D. Van Dusen. A full organization of the association will be made and all parents having children in the High School are urged to be present.

## Senate Adopts Jones Bill for Muscle Shoals

Party Lines Broken When Senate Passes Substitute for Underwood Bill—Vote 40 to 33—Jones Bill Provides for Commission to Study Subject.

By Telegram to The Freeman.  
Washington, Jan. 13.—The Senate today substituted the Jones Muscle Shoals bill for the Underwood plan. The Jones bill would appoint a special commission of three members to make a thorough study of the Muscle Shoals question and report back to Congress next December definite recommendations for disposing of the \$150,000,000 power and nitrate plant.

Administration senators who previously voted to substitute the Underwood bill for the Norris government-owned ownership plan, deserted the Underwood ranks and switched to the Jones amendment. The vote was 40 to 33.

Party lines were broken on the vote, 29 Republicans, including many administration senators joining with one farmer-Laborite and 16 Democrats in voting for the Jones substitute. The Underwood bill received the votes of 16 Republicans, including the president's spokesmen, and 17 Democrats.

## Dry League Head Warns Smith

Anti-Saloon League Head Predicts What Will Happen to Governor Smith if He Persists in His Wet Stand, Based on His Past Record.

By Telegram to The Freeman.  
Albany, Jan. 13.—Arthur J. Davis, state superintendent of the Anti-Saloon League, in a statement issued at the Capitol today, attacked Governor Smith for the latter's stand on the prohibition question.

"Governor Smith," said the statement, "in his message to the Legislature placed the burden of responsibility for the breakdown of the prohibition enforcement in the state on the shoulders of the local communities where it does not belong."

"By signing the repeal of the Mulian-Gage law he, himself, assumed this grave responsibility and in the eye not only of the state but of the country, he must bear the weighty burden of the consequences of the repeal."

"The multiplied thousands of dry Democrats throughout the country are watching to see if Governor Smith has profited by the experience at the national Democratic convention and whether he has learned his lesson. So long as he persists in his policy of nullifying the Constitution, and rendering the national prohibition law inoperative, he will never secure their support as a presidential possibility."

Davis predicted an early passage by the Legislature of a state-wide dry enforcement law.

## Foreign Policies Remain the Same

President Coolidge Assures Callers Policies of His Administration, in Effect Under Hughes, Will Continue.

By Telegram to The Freeman.  
Washington, Jan. 13.—President Coolidge took cognizance today of the enormous speculation that has followed in the wake of Secretary of State Hughes' resignation by assuring White House callers that no marked changes in the foreign policies of the administration may be expected after Frank B. Kellogg becomes secretary.

On the contrary, it was stated, the president expects the foreign policies of his administration to proceed along the lines already laid down with only normal expansion and enlargement as new conditions arise.

## 150 Rescued When Hospital Burns

By Telegram to The Freeman.  
Tokio, Jan. 13.—Fire today destroyed St. Luke's Hospital, the oldest and largest foreign hospital in Japan.

All the 150 patients were saved through heroic work of doctors and nurses. The structure was a temporary building in use since the earthquake.

The institution was founded in 1885 and was operated by the American Episcopal Church. The loss was estimated at \$200,000.

## Our Growing Population

The following births have been reported to the board of health: Mr. and Mrs. Louis Perry, 232 East Union street, a son, Francis.

Mr. and Mrs. Robinson, 8 Withers avenue, a daughter, Irene Anna.

Mr. and Mrs. William H. Tierney, 116 Duane street, a son, William F.

## Ten Arraigned in County Court

Persons Indicted by Last Grand Jury Plead Not Guilty Except in One Case Where Defendant Is Fined for Driving While Intoxicated.

District Attorney Traver will have several criminal actions ready for trial at this term of the county court. On Monday afternoon several prisoners were arraigned in court and entered pleas of not guilty and their cases will be held until the next term of court before they will be moved for trial. However, there is a long criminal calendar ready for trial made up of defendants who entered pleas of not guilty when arraigned at a prior term.

Six of the defendants arraigned in court were charged by the grand jury with operating a motor vehicle while intoxicated. One of the offenders is charged as a second offense. One prisoner was charged with possessing a pistol without a permit in violation of section 1897 of the penal law and also with having the pistol concealed upon his person. One defendant was charged by the grand jury with assault and another indictment charges two young men with grand larceny, second degree. All of the prisoners arraigned were charged with the respective crimes in sealed indictments handed up by the last grand jury in attendance at the December term of the Supreme court.

Patsy Mayone is charged by the grand jury with possessing a pistol without a permit and having it concealed upon his person. He entered a plea of not guilty through his counsel William D. Brininger, Jr., who asked for twenty days to change the plea if desired or to make further motions. Mayone was released on \$500 bail.

Albert Pross, charged with driving a car while intoxicated, as a second offense, alleged to have taken place in the city of Kingston on September 7, 1924, entered a plea of not guilty. William D. Brininger, Jr., appeared for Pross and asked for twenty days to make motions or change the plea. This being charged as a second offense of the defendant, he was released under \$1,000 bail.

George V. B. Keim, charged with the same crime, alleged to have taken place in the city of Kingston on November 3, entered a plea of not guilty, and was released on \$500 bail. Mr. Brininger asked for twenty days to change plea or make motions.

Peter J. Dugan, charged with driving while intoxicated in the city of Kingston on October 17, 1924, was represented by Thomas F. Coughlin who entered a plea of not guilty and asked for twenty days to make motions. Bail was supplied in the amount of \$500.

Fred Hummel, arraigned on the same charge, entered a plea of not guilty to the charge of driving in Saugerties on July 20. William D. Brininger, Jr., entered a plea of not guilty for Hummel and asked for twenty days' time for motions. Hummel had deposited \$200 cash bail with Magistrate Clyde F. Gardner at Saugerties and an order was entered transferring this bail to the county treasurer.

Michael Wisniski when arraigned on the same charge entered a plea of guilty and asked that his case be disposed of at this term of court.

It was. Michael was asked to give up his license but informed the court that since his arrest on a charge of driving while intoxicated he had disposed of his car and had no license to drive. He was fined \$200 and sentenced to three months in the county jail. However, the jail sentence was suspended during good behavior and on condition that he pay to the county of Ulster \$100 to pay the county for the trouble and cost of the case. He paid the \$200 in cash. Michael was charged with driving in the town of Saugerties on July 20. He said he was born in Russia and was not a citizen. He resides at Cementon, could read and write; he is married but his wife is in the "old country." He had never before been convicted of any crime.

Patrick Jordan, charged with the same crime, alleged to have taken place in the town of Ulster on October 5, entered a plea of not guilty and was released on \$500 bail. William D. Brininger, Jr., appeared for him.

Caroline Siriano, charged with assault, second degree, alleged to have taken place in the town of Saugerties on July 7, entered a plea of not guilty and was released on \$500 bail. William D. Brininger, Jr., appeared for her and asked that the case be tried at this term of court.

John Williams and Michael Poli, indicted on a charge of grand larceny, second degree, both entered pleas of not guilty. They with others are alleged to have entered a place in the town of New Paltz on December 2. William D. Brininger, Jr., who appeared for the two lads, asked for 20 days time to make motions and asked that bail be fixed. Bail was fixed at \$200 cash and supplied.

No further business was ready for the court and after drawing the 30 extra jurors court went into recess until this morning.

## WATERING TROUGH SPRUNG A LEAK ON CRANE STREET

The watering trough at the corner of Crane and East Union streets sprang a leak several days ago and flooded the streets in that vicinity. Owing to the depth of the frost in the ground the work of mending repairs is proceeding slowly.

**Use FREEMAN advertising regularly and conservatively and results will surely follow.**

## Speaker at Annual "Y. W." Meeting

From four years' experience among the factory girls of Japan, Miss Carolyn Allen of Yokohama will speak at the annual meeting of the Young Women's Christian Association at 8 o'clock Wednesday night.

Miss Allen is a Y. W. C. A. industrial secretary who for the past four years has been stationed at Yokohama. The famed factory conditions of Japan are rapidly improving, she declares. Western innovations are being swiftly adopted. The average wage of Japanese factory girls is now equivalent to 23 cents a day. Meals cost 10 cents. The twelve hour day is still in effect, hours 6 a. m. to 6 p. m., with 45 minutes for lunch.

Describing a recent tour of factories, Miss Allen said she visited one factory employing 6,000 girls, where very bad conditions existed, and in the next hour visited a factory of 400 girl employees which had adopted all of the good features of western manufacture, operating on a most modern scale, illustrating that Japanese industry is in a transition stage.

Japanese manufacturers are honestly striving to live up to the labor law provisions of the League of Nations, says Miss Allen.

Girls are employed industrially at the average ages of 15 to 21. The first years they serve an apprenticeship, during which they are not permitted to leave the factory dormitory. In the succeeding years they are permitted to spend holidays, which occur four times a month, outside the factory walls.

Miss Allen was at a summer resort near Yokohama at the time of the earthquake disaster of September, 1923, and although directly in the wake of the storm, escaped without personal injury. Her roommate, Mrs. Edith Lacey, a Y. W. C. A. secretary, was killed at Yokohama. Their home was completely destroyed.

Japan is recovering from the earthquake, says Miss Allen. Industry seems to have entirely resumed. The Y. W. C. A. has rebuilt and is operating on its former scale. Miss Allen will remain in this country on furlough until early in the summer. She visits this city among others on an extensive speaking tour.

While here Miss Allen will be the guest of Miss Sarah Horton. A brief report of the work of the local association for the past year will be given by the general secretary, Miss Estey, and necessary business of the organization transacted.

The result of the balloting for eight board members will be announced, ballots having been sent out to the electors of the association. Those nominated as possible directors are Mrs. George F. Rice, Miss Alma Tyler, Mrs. Frank Thompson, Dr. Mary Gage-Day, Mrs. C. B. Dickinson, Mrs. Seth Staples, Mrs. William Fessenden, Mrs. Maurice Safford, Mrs. Harry Walker, Mrs. Mae Perkins, Mrs. C. N. Reed, Mrs. William Simmons.

A social hour will follow the program when refreshments will be served under the direction of Mrs. Seth Staples, chairman of the hospitality committee. Music will be enjoyed. Miss Jessie Cowley, soprano soloist, and Miss Mae Eckert, violinist, having consented to entertain with selections.

All members of the association are especially urged to show their interest by attending this meeting.

### Way to Judge Age

A moving picture man delights to tell of a proposal that happened while he was directing one of his latest pictures. It seems that a young writer had laid his heart at the feet of the leading woman and had been coldly turned down.

"Perhaps it's best, after all," he remarked, sadly. "After all, a man of twenty-five would soon tire of a woman who hovers around thirty-two." "But I'm not that old," gasped the woman. "Whatever led you to believe that I'm thirty-two?" "Well, perhaps you're not," admitted the young man, "but it certainly struck me that you must be somewhere near the freezing point."—Los Angeles Times.

### Drilling Holes in Glass

Drilling holes in glass is not so very difficult. The old method utilized a discarded triangular file, ground to a sharp point and used in a brace with a slight pressure. The point of contact was maintained with turpentine. The more recent way and one that is quicker is to use a brass or copper tube with this well instead of a file, says Popular Science Monthly. The tube is placed in a brace and drilling is accomplished with powdered carborundum on a cutting agent. A guide of wood keeps the tube properly centered.

### Old Headlines

The superb head of parades is one of the most remarkable of all that human group, says Nature Magazine of Washington. It is only nine inches long, velvet black with purple and green metallic ornaments, including a large bright metallic green pectoral shield and another large forced velvet black ornate shield on the back of the neck. It was in New Guinea.

### Couldn't Be Fed

After he'd done his first pair of trousers, and his grandmother was preparing the old man's lunch.

"It's Alex, grandmother," he called out.

"Oh, so! It can't be Alex because Alex was young."

"But it is Alex, grandmother, because I was there and saw mother put them on me."

## THE OFFICE CAT

(By Junius.)

Few of the people who envy the plasterer's salary have studied the corns on his hands.

A great lover is one who can tell whether a girl is pensive or sleepy.

Had an accident up at our house the other night.

Yeh? Anybody hurt? Naw. The old man was just about asleep when the pillow slipped, the bed spread, he fell through the mattress and almost drowned in the springs.

I see you're having a new piano put in.

That isn't a piano, that's my new radio set.

Something else this country needs is a disarmament movement aimed at the one-hand driver who shares the front seat with a cutie.

It is better to begin at the bottom and work up than to begin in the middle and stay there.

Leo Baer, Ipswich, S. D., went over to Aberdeen the other day. When he left home he was the father of four children. When he returned in the evening he was the father of seven children. Why, oh why, will men leave home?

Woman of the house—Who's there?

Burglar—It's only me, darling. Your husband.

Woman of the house—My husband doesn't call me darling. Police!

One—Pete ate something that poisoned him.

The other—Croquette?

One—No, but he's pretty darn sick.

"No one," declared a high school miss, "can doubt that this book has a happy ending."

Her father picked up the book and examined it. It was a treatise on algebra.

"Where does the happy ending come in?" inquired he.

"Look at the back of the book."

He looked and found the answers to all the problems.

An old maid was approached by a welfare worker.

"Will you subscribe for the Homeless Men fund?"

"No," snapped the old maid. "But I might consider taking one."

If matches were made in heaven, who under the world has been manufacturing our fire extinguishers?

What's a kilogram, anyhow?

A hundred feet, isn't it?

Naw, that's a centipede you're thinking of.

Remember, once on a time the housewife was kept busy throwing out those old four post beds—the kind they are searching attics for now.

Women are braver than men. Who ever heard of a man marrying a woman to reform her?

## Senator Bingham Takes Oath of Office

### Senator Bingham Takes Oath of Office

Senator Hyman Bingham, of Connecticut, is shown at his desk in Washington after having taken the oath of office, surrounded by Senator Brandegee, who killed himself. Senator Bingham, a Republican, succeeds the native distinction of having been Lieutenant-Governor, Governor and United States Senator within a week's time. He has been appointed to the same office as William Allen, Post Office and Post Road.

### Nature's Wisdom

Nature gives to every time and on some hours of its own; and from morning to night, on from the cradle to the grave, is but a succession of changes so gentle and easy that we can scarcely mark their progress.—Dante.

## POULTRY

### BREEDING MALE IS OF BIG IMPORTANCE

With poultry, as with everything else, like produces like. Poultrymen, realizing the truth of this, are now making the final selection of their breeders for the coming spring, ever bearing in mind that what they select now will be multiplied in numbers next year.

First of all, says R. E. Cray, assistant specialist in poultry husbandry of the New York State Agricultural college, remember that the male is more than half the flock. The cheapest male is the one with a pedigree record, stamina, and body conformation; the most expensive male is the scrub which you usually get when exchanging with a neighbor. Remember that egg production must be bred in, in order to be fed out.

The good producer has body type of capacity measured by its length, depth, and width of body, a lean face free from wrinkles, and a large, prominent eye. The head should be well balanced, broad and deep, with every line denoting strength. The skin should be soft and pliable and the shanks smooth and flat. Above all, the breeder should show no signs of sickness, but its personality should denote health, vigor and interested activity.

Only use those birds for breeders which have completed at least one year's production and which were culled vigorously during the period. Remember that you culled to eliminate the poor producers so that you would not breed from them, and then decide how many poor birds you would produce if you were to breed from the pullets which you now have.

The comparative number of males and females varies with the breeds, as follows:

Laguna.....1 male to 15 females  
Aconas.....1 male to 15 females  
Rocks.....1 male to 10 females  
Reds.....1 male to 10 females  
Wyandottes.....1 male to 10 females

Give the breeders plenty of exercise, allowing them out in the yards when the weather permits. Keep the litter dry and deep and the house well supplied with fresh air.

High fertility and stronger chicks will result if the breeders are not forced. It is best to keep them below 50 per cent production; 32 per cent animal protein in the mash is sufficient.

### Scaly Leg in Fowls Is

#### Very Easy to Eradicate

Scalies on the legs of fowl are caused by a small parasite which burrows under the small scale-like covering of the legs and once safely imbedded, multiplies rapidly, thus causing the upraising and enlarging of the scales until they become unsightly and, if allowed to progress undisturbed, will result in lameness and irritation.

Treatment for scaly leg is very simple and once thoroughly eradicated, there is little fear of a return provided the quarters are kept clean. First clean the houses well and burn all trash. Give roost poles a thorough cleaning with any sort of crude oil or with common kerosene, being sure that every part is reached. Now catch all fowls infected and dip their legs into a vessel filled half full of a mixture of lard and kerosene, equal parts. Hold in mixture five minutes.

One treatment usually effects a cure. If not, the treatment may be repeated in four or five days. Sometimes it is necessary to rub the mixture in with a soft brush, or with the fingers; the main point being to see that the oil reaches all parts of the scales. This destroys the parasites, after which the scales drop off and the legs become smooth and natural.

### Early Hatches Favored

A late hatched chick will never develop as rapidly, economically, or reach maturity in as short a time as earlier hatches. Most of the late stock will always appear rather immature, never attain sufficient size, and will not start laying early enough to hit the market of high egg prices. With late hatched birds a proper feeding method will help but cannot work the miracle of making something worth while out of nothing.

### Good Egg-Laying Mash

A good laying mash can be made of 100 pounds each of ground oats, ground corn, middlings, bran and meal scrap. If you have plenty of sour milk to feed the hens, reduce the meal scrap one-half. Equal parts of cracked corn and wheat makes an ideal all scratch grain ration. You can obtain a very practical bulletin on poultry feeding by addressing the Michigan Agricultural college experimental station, East Lansing.

### Few Pullets Too Fat

In order to properly produce, a pullet should be in prime condition. The fear of having less fat has been drilled into all of us so long that we are beginning to feel about the same in regard to pullets. There are more pullets that are over producers because of improper condition than there are those that are too fat in the fall. Sometimes it seems that one could be safe in stating that a pullet going into winter quarters cannot be too fat.

### Determination Wins

Success has no secrets. Her voice is forever ringing through the morning place and crying in the wilderness and the burden of her cry is the one word—WIN. This is the declaration of every man and woman who has succeeded.—Gore.

## Bible Teacher Gives Good Talk

Monday evening there was a good attendance despite the inclement weather at the special services at the Wurts Street Baptist Church to hear the noted preacher and Bible teacher, the Rev. Dr. J. Harvey Murphy, pastor of the Reformed Church, Hudson, N. Y. His subject was "The Church—Yesterday, Today, Tomorrow." The text was found in Acts 2:6 R.V. "And when this sound was heard, the multitude came together." Acts 2:41. "And the Lord added to the church daily such as should be saved."

He spoke in part as follows: "The church yesterday. The early church, the Pentecostal Church, was the ideal. That church was the outgrowth of the life and teachings of Jesus. The disciples were gathered at Jerusalem awaiting the promise of power and were spending their time in prayer. Then came the Pentecostal anointing, which gave the necessary power and authority. When this sound was heard, the multitude came together. Thousands were added to the church by the Lord."

"The church of today. Why is it that similar events do not happen today? It has been quite a while since 3,000 souls have been added daily to the modern church. The church can no longer say, 'Silver and gold have I none.' Neither can the church say, 'In the name of Jesus of Nazareth, rise and walk.'"

"The church of tomorrow. We have in our keeping the church of tomorrow. It will be as an institution, just what we make it. The true church has never changed."

Miss Gladys Crow sang a solo which was greatly appreciated by the congregation. The topic this evening will be "Evolution vs. Revelation." Miss Jessie Cowley will sing at the service this evening. All are most cordially welcome.

### Universal Force

Force, force, everywhere force! We ourselves a universal force in the center of that. There is not a leaf that is in the highway but has force in it. How else could it roll?—Thomas Carlyle.

## YOUR BOY

See to it that he gets the body-building and strengthening elements that

## IMPORTANT CHANGES IN COOLIDGE CABINET

MR. CHARLES EVANS HUGHES, MR. CHARLES B. WARREN, MR. CHARLES E. HUGHES

Giving as his reason a desire to retire to the private practice of law, Secretary of State Charles Evans Hughes, of New York, has resigned, effective March 4, and President Coolidge has appointed in his place Frank B. Rowland, of Minnesota. At present Ambassador to Great Britain. Mr. Coolidge also appointed Charles B. Warren, of Michigan, former Ambassador to Japan and to Mexico, as general secretary. Mr. Rowland is a native of New York, and was the Supreme Court clerk. There are repeated rumors in Washington that Mrs. Coolidge will be named by President Coolidge as the first woman Judge on a Federal bench in the United States.

## Getting Skinnier Every Day

Hollows in Cheeks and Neck Growing Deeper Every Week.

Something Must Be Done and Done Right Now—Quick.

Tens of thousands of thin, run-down men—yes, and women, too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong. All such people can stop worrying and start to smile and enjoy life right now for McCoy's Cod Liver Oil Compound Tablets, which any druggist will tell you all about, is putting flesh on bony cheeks and making folks every day.

One woman, tired, weak and discouraged, put on 15 pounds in five weeks and now feels fine.

We all know that Cod Liver Oil is full of vitalizing, flesh-producing vitamins, but many people can't take it because of its horrible smell and fishy taste and because it often upsets the stomach.

McCoy's Cod Liver Oil Compound Tablets are as easy to take as candy and if any thin person don't gain at least 5 pounds in 30 days your druggist will give you your money back—and only 60 cents for 60 tablets. Ask any five pharmacist anywhere.

But be sure to get McCoy's, the original and genuine, and bear in mind that for this, sickly kids they are wonderful—a very sickly child, age 3, gained 12 pounds in 7 months.

Makes Autos Go 49 Miles on One Gallon of Gas

SIoux FALLS, S. Dak.—James A. May of 1591 Locust Bldg., has perfected an amazing new device that cuts down gas consumption, removes all carbon, prevents spark plug trouble and overheating. Many cars have made over 49 miles on a gallon. Any one can install it in five minutes. Mr. May wants agents, and is offering to send one free to any auto owner in each locality. Write him today.

## Denning Herds 90% Tested

First Town in County to Have Cattle Tuberculin Tested by Ulster County Accredited Herd Association Which is Now Concentrating on Gardiner.

The Ulster County Accredited Herd Association won its first victory in its fight to free the cows of Ulster county from tuberculosis. Ninety per cent of the herd owners in the township of Denning have had their cows tested for tuberculosis.

The test was carried on during the month of December and announcement of the results was made at the headquarters of the Ulster County Farm Bureau today. Four hundred ten cows were tested with only 19 reactors.

Three years ago the only way a farmer could have his cows tested was to write to the State Bureau of Farms and Markets for the test. So many requests were made that the bureau fell behind in the work. Generally two years elapsed from the time of the request until the time the test was made.

This has all been changed and now the farmers have an opportunity to have their cows tested annually. The plan is for each county to have its own T. B. committee or association. Most of the counties in the state have formed some type of association for this work. Over a year ago the Ulster County Accredited Herd Association was formed with J. H. Davis, president, and Fred DuBois, James Tucker, C. C. Hurd, and Frank DuBois, directors.

Cows must be tested twice annually or three times semi-annually before the herd can be placed on the accredited herd list. All reactors, cows showing signs of tuberculosis at the test, are removed. The authorities see to it that the owner obtains a fair price. After each test the barn is thoroughly disinfected.

Essex and Steuben county herd owners have had their cattle tuberculin tested two times. Greene county has been covered once and no owner of a herd in that county which has not been tested can import or export cows to and from the county.

The work is carried on township by township. The first township in Ulster to have ninety per cent of its herds tested is Denning. The association is now concentrating on Gardiner. As soon as ninety per cent of the herd owners in Gardiner township join the association their cows will be tested.

#### Advantages to Farmer.

The advantages to a farmer of having his herd placed on the accredited herd list are:

From 10 to 20 per cent increased value to the individual animal and corresponding increased herd value.

Ability to ship interstate from accredited herds without further testing for a period of one year.

The owner's name being listed in pamphlets published by the respective states and the bureau of animal industry.

Satisfaction of knowing that the dairy products offered for sale are free from disease germs.

Elimination of economic losses caused by the disease which are as follows:

1. Tuberculosis destroys a by death a certain number of animals after the disease has become established in the herd.

2. Tuberculosis causes a waste by feeding animals that are diseased and cannot give adequate return.

3. Tuberculosis causes heavy losses by infecting other animals, such as swine, calves and adult cattle through the milk and by contact.

4. Tuberculosis reduces the productive and milk value of the cows. If there is physical evidence of its existence, the animals have practically no market value for breeding purposes.

5. Tuberculosis destroys the good reputation of a herd, thereby rendering it difficult to sell the animals and often to dispose of their products. More and more emphasis is being placed on this phase of the subject.

T. B. Cow Source of Danger.

The tuberculosis cow is the greatest source of danger to healthy cattle. Any reactor not promptly removed from the herd constitutes a source of constant infection.

Tuberculosis cattle, sooner or later, begin to give off the germs of the disease. These germs escape by the mouth, nose and bowels. In the milk and other discharges. The discharged germs are carried in the air for a time until they fall to the ground.

Animals in adjoining stalls may take in the germs in the feed they eat and thus contract the disease. Contaminated water troughs in barns containing diseased cattle are a source of danger. Drinking holes containing diseased cattle are a source of danger. Drinking holes containing material from infected animals are likewise dangerous.

Failure to clean and disinfect the premises occupied by the diseased cattle constitutes another source of danger. Infected milking tubes and the practice of feeding calves with raw milk from tuberculous cows are other means by which tuberculosis spreads in a herd.

Uniform Methods and Rules.

The uniform methods and rules for tuberculosis-free accredited herds of cattle are unanimously adopted by the United States Live Stock Sanitary Association and by representatives of Pure-Bred Cattle Breeders' Associations and approved by the United States Bureau of Animal Industry and the New York State Bureau of Animal Industry are as follows:

1. A tuberculosis-free accredited herd is one in which no animal affected with tuberculosis has been found upon two annual or three semi-annual tuberculin tests, and by physical examination, applied by a regularly employed veterinarian of the United States Bureau of Animal Industry or of the state in which the herd is located.

2. Before a herd can be accredited the standards and premises shall be placed in a sanitary condition. Herd reactors are discarded as the result of any test. They must be immediately removed from the farm and the premises thoroughly cleaned and disinfected before the herd shall be placed in a position of accreditation.

3. Prior to each tuberculin test satisfactory evidence of the identity of the registered animals shall be presented to the inspector. Any grade cattle maintained in the herd or associated with the animals of the herd, shall be identified by a tag or other

and the state, or one in which no animal affected with tuberculosis has been found upon two annual or three semi-annual tuberculin tests applied by an accredited and a federal or state veterinarian in a manner provided in Rule 6.

Section (a). The subcutaneous, intradermic and ophthalmic methods of applying the tuberculin test are approved.

Section (b). The initial testing in accredited herd work may be by either the subcutaneous or intradermic method, but the ophthalmic method shall only be used in combination with the subcutaneous or intradermic method.

Section (c). A herd which on any previous test shows evidence of infection before being accredited the final test shall be by a combination of all three methods, including the subcutaneous, intradermic and ophthalmic tests, but in cases of animals under test are wild and unmanageable (Range Cattle) this plan may be at the discretion of the federal and state authorities in the state, be modified to the extent that one method of testing be eliminated from the combination; otherwise the final test on herds shall be by such combination of methods as may be deemed most advisable by the state and federal authorities.

2. The entire herd, or any cattle in the herd, shall be tuberculin tested or retested at such time as is considered necessary by the federal and state authorities.

3. No cattle shall be presented for the tuberculin test which have been infected with tuberculosis within sixty days immediately preceding, or which have any time reacted to a tuberculin test.

4. An accredited herd in which not more than one reactor is found at a subsequent tuberculin test, may be reinstated to the list if the entire herd passes a successful test without reactors; said test to be applied not less than four months from the date when the reactor is removed from the herd and farm, providing the owner has complied with all the requirements with reference to the introduction of additional animals to the herd, and also other requirements of the accredited herd plan.

5. No cattle other than those of an accredited herd shall be added to an accredited herd or to a herd that is in the process of accreditation, until they have passed two tuberculin tests applied at intervals of not less than sixty days or more than ninety days by a regularly employed state or federal veterinarian or by a veterinarian specially authorized by the state and bureau to conduct such tests. The cattle may, after passing the first test, be placed on the farm or premises containing an accredited herd or one in the process of accreditation but must not be allowed to associate with said herd until after passing the second test.

6. (a) When a herd has been officially accredited by the United States department of agriculture and state, it shall be, when ordered by the live stock sanitary officials of the state tuberculin tested annually by any veterinarian whose name is upon the accredited list of veterinarians approved of by the United States Bureau of Animal Industry, provided that before any veterinarian other than one who devotes his entire time to the work of a state or the bureau of animal industry can be approved for accredited herd work, he shall have passed an examination conducted by the proper live stock sanitary officials of the state in which he resides, and the bureau of animal industry. He then shall be eligible to conduct annual tuberculin tests upon herds which have been officially accredited upon dates approved of by the proper state live stock sanitary official and the inspector in charge of the bureau of animal industry wherein the herd is located.

(b) No herd tests can be made by such an accredited veterinarian unless he has instructions in writing from the state officials to that effect. The date of the annual tests for each herd shall be recorded in the state office and also, in the office of the inspector in charge. On any annual test the state and bureau reserves the right to have a regularly employed official present on the farm to supervise the testing done by the accredited veterinarian.

(c) The accredited veterinarian shall conduct each test strictly in accordance with instructions issued by the Bureau of Animal Industry to employees engaged in cooperative tuberculosis eradication work. At the conclusion of each test, the accredited veterinarian shall submit to the state veterinarian and the inspector in charge of the Bureau of Animal Industry, a copy of the record of the test.

(d) Any animal of a herd under supervision which may react in any herd tuberculin tested by an accredited veterinarian shall be marked for the purpose of identification in accordance with the regulations of the state in which the animal is located.

(e) Tuberculin tests applied by veterinarians other than those regularly employed by the state and Federal Bureau of Animal Industry shall be paid for by the owner of the herd.

(f) Accredited veterinarians may conduct tuberculin tests under official directions at owner's expense on herds in the process of accreditation in states which approve of this method of testing, until all animals in the herds have passed one negative test; provided, however, that in such herds Federal indemnity shall be payable only when the test is conducted by regularly employed Federal or state veterinarians.

7. Before a herd can be accredited the standards and premises shall be placed in a sanitary condition. Herd reactors are discarded as the result of any test. They must be immediately removed from the farm and the premises thoroughly cleaned and disinfected before the herd shall be placed in a position of accreditation.

8. Prior to each tuberculin test satisfactory evidence of the identity of the registered animals shall be presented to the inspector. Any grade cattle maintained in the herd or associated with the animals of the herd, shall be identified by a tag or other

marking satisfactory to the State and Federal officials.

9. All removals of cattle from the herd, either by sale, death or slaughter, shall be reported promptly to the said State or Federal officials, giving the identification of the animal and, if sold, the name and address of the person to whom transferred. If the transfer is made from the accredited herd to another accredited herd, the shipment shall be made only in properly cleaned and disinfected cars. No cattle shall be allowed to associate with the herd which have not passed a tuberculin test approved by the State and Federal officials.

10. All milk and other dairy products fed to calves shall be that produced by an accredited herd, or if from outside or unknown sources it shall be pasteurized by heating to not less than 150 degrees F. for not less than 20 minutes.

11. All reasonable sanitary measures and other recommendations by the State and Federal authorities for the control of tuberculosis shall be complied with.

12. (a) That the requirements for tuberculosis-free area work be similar to the tuberculosis-free accredited herd work and to be applied to all cattle located in said area.

(b) That before any area shall be recognized as tuberculosis-free, after having complied with Paragraph (a) of the section, there must be satisfactory assurance of official live stock sanitary police restrictions to prevent reinfection of said area.

13. Cattle from an accredited herd may be shipped interstate, by certificates obtained from the office of the state live stock sanitary officials or from the office of the Bureau of Animal Industry, without further tuberculin test for a period of one year, subject to the rules and regulations of the state of destination.

14. Strict compliance with these methods and rules shall entitle the owner of free herd to a tuberculosis-free accredited herd certificate to be issued by the federal and state departments. Said certificate shall be good for one year from date of test unless revoked at an earlier date.

15. A supplementary list shall be made to the accredited herd list to contain the names of the owner of pure bred herds that the found free from tuberculosis on two annual tuberculin tests but in which the herd bull reacted. Such herds shall not receive an accredited herd certificate. The reacting bull may be used under the following conditions:

1. He shall have passed a satisfactory physical examination and be kept in isolation and quarantine under state supervision.

2. When it is desired to breed cattle to the reacting bull, such cattle shall be taken to the bull and bred on neutral grounds. The bull shall be controlled on a staff or halter.

3. After the bull is no longer used in the herd, that herd may be fully accredited after two successful tuberculin tests applied not less than six months apart.

16. Failure on the part of the owner to comply with the letter or spirit of these methods and rules shall be considered sufficient cause for immediate cancellation of cooperation with them by the state and federal officials.

OUR DAILY PATTERN.

4257

Flat crepes and ribbed silks, prints and above all striped silks, are some of the style messages waited from the South, with, of course, the widely heralded kasha and such fabrics always in the picture.

Worsted embroideries intrude in sport circles and make effective trimmings for flannels and homespun and kashas, and fur is worn without regard to the thermometer.

The two-piece sports dress continues to have a recognizable standing, but the two-piece suit must be defined not as jacket and skirt but as dress and coat, usually termed the three-piece costume. While many of the smartest frocks are slipped on over the head, both front and side closings are countenanced.

NEW PALTZ.

New Palz, Jan. 13.—Professor G. B. Dehon of Ithaca has returned to his duties at Cornell University after spending the holiday vacation with relatives and friends in New Palz.

Joe E. Hasbrouck, Jr., is spending a few days in New York city.

Mr. and Mrs. Perry Devo were host and hostess to the evening "500" club Thursday night.

Frank Bowles of Tarrytown and Loughran Smith of Kingston were recent guests at the home of Mr. and Mrs. I. D. Sutton on Main street.

Mr. and Mrs. George Van Vleet of Newburgh spent the week-end with their daughter, Mrs. Webb Kaifon and family.

Emily Van Iderstine spent the week-end with Beatrice Thompson in Cornwall.

Elting Hart spent all last week near the center of North Carolina taking part with a moving picture party who were there creating a picture, the title of which will be "Quail Hunting in North Carolina."

Raymond M. Hasbrouck and daughters spent Wednesday in Poughkeepsie.

Mrs. Joseph Schoonmaker was hostess to the Wednesday Club January 6.

Bruce Hasbrouck was a business visitor at Gardiner on Wednesday.

Dorothy Frouty is in at her home in Glens Falls but is expected to return to her school work next week.

Miss Knapp recently secured a radio for enjoyment for winter evenings.

Principal Van den Berg and Bruce Bennett attended the meeting of school principals at Syracuse during New Year's week.

Mr. Bennett gave the address at the conference of school men at their annual convention.

Joe Griffin and Mabel Foot were guests of Marjorie Ages over the week-end.

Miss Frick saw several plays in

New Palz.

Bruce Bennett was a guest at a banquet given by the First Church of Christ Friday evening, returning by a late train to be at an extensive on Saturday.

Lois Hitt is unable to attend school for a few weeks on account of a slight operation.

Mr. and Mrs. Francis J. Hargrove of Pine street, Kingston, were the guests of Mr. and Mrs. Webb Kaifon Sunday.

The Ladies Aid of the Reformed Church will meet with Mrs. Bruce Hasbrouck Friday, January 16.

Miss Stanford, the local solo and pianist, has completed and is preparing a special piece of work for St. Andrew's Church in the religious and musical of the church choir.

The singing in St. Andrew's church choir, with a gleeful and well-arranged.

New York city while there on her vacation; among them were "The Student Prince" and "Old Man Randa," which she reported being very good and acting.

Mrs. Stella S. Wesley of New York city is caring for her mother who is in at the home of her daughter, Mrs. A. H. Schoonmaker.

Mrs. Frank Lofgren visited the school Wednesday afternoon.

Dorothy Potter is in with mother at her home in Port Jervis.

Miss Follenberg is detained at her home in Huntington on account of her father is in with influenza.

Miss C. Moore recently entertained Mrs. H. H. H. of Kingston, and Miss Deal of Greenport.

Emily Jacobs went to Rhinecliff Saturday on vacation work.

Miss Nichols and Miss Chittenden went to Catskill Saturday.

Marion Hudson spent her vacation

## bake it best with DAVIS BAKING POWDER

SOME ESTABLISHED FASHIONS.

(By Eleanor Gunn.)

The acceptance of the greatly shortened skirt, and the lack of resistance against high collars are two features which register not only on surveying current fashions, but in viewing collections for spring.

The dominant note in the world of smart dressing continues, however, to be the ensemble—it extends from the boudoir to the beach, the southern sands being gayly dotted with beach costumes made of coats which reach the waist.

The reappearance of the bandana, or square handkerchief scarf, is another feature, and many dresses and coats have copied this idea for their neck treatments.

Flat crepes and ribbed silks, prints and above all striped silks, are some of the style messages waited from the South, with, of course, the widely heralded kasha and such fabrics always in the picture.

Worsted embroideries intrude in sport circles and make effective trimmings for flannels and homespun and kashas, and fur is worn without regard to the thermometer.

The two-piece sports dress continues to have a recognizable standing, but the two-piece suit must be defined not as jacket and skirt but as dress and coat, usually termed the three-piece costume. ## Peace of Mind

By this NEW way in personal hygiene

FIVE million women have radically changed their habits in personal hygiene in the past few years. They have learned the new scientific way—KOTEX.

Kotex is a super-absorbent sanitary pad made of Cellucotton, which absorbs instantly 16 times its own weight in moisture. It is 5 times as absorbent as cotton. Each Kotex pad is treated with a new secret disinfectant—making it, of itself, an active deodorant. Another great advantage is that Kotex is easily disposed of—without bother or annoyance.

In germ-proof, sanitary packaging of 12 Kotex comes in 2 sizes Regular and Kotex-Super. Get Kotex Disinfectant, in the blue box with white strips, at most stores.

## Chichester Fives Win Another

A large crowd witnessed the games  
at the Chichester Social Hall on Sat-  
urday evening. In the preliminary  
game the Chichester Midgets out-  
scored the Hunter Midgets 26 to 15.  
Lee was the winner's highest point-  
getter with 21 points while Becker of  
Hunter made 7 with his team.

In the main game the Chichester  
team won from Phoenixia 28 to 6.  
This game was somewhat roughly  
played but was fast and interesting.  
The score at half time was 8 to 2.

## "Soup" Campbell Is Traded for Maurice Tome

Veteran Court Player Comes Back to  
Kingston—C. Husta and Riconda  
Lead Scorers—Time Out for Fouls  
Committed.

During the week just closed the  
race in the Metropolitan Basketball  
League for first place honors in the  
second half of the series began to  
look like another repetition of the  
thriller that took place during the  
first campaign of the present season.

The first four clubs are very closely  
bunched with but a half game sepa-  
rating them, and the indications are  
that in the next few weeks Yonkers  
and Trenton who are both trailing,  
will soon close in on the leaders. Yon-  
kers made an excellent move in se-  
curing the services of Dreyfus from  
Kingston, before he had a chance to  
show his wares here. His acquisition  
will provide Yonkers with a good  
scoring guard, which has been a  
drawback to the crew of Manager  
Fennell's all year. Trenton also added  
material strength to its roster by  
trading Maurice Tome to Kingston  
for Jimmy "Soup" Campbell. In se-  
curing Campbell, the Bengal Tigers  
have added a man to offset the loss  
of Glaseo, who will be out for some  
little time with a couple of broken  
ribs, and Kingston could afford to  
make the sacrifice by securing Tome to  
help out Powers and Harvey at  
center.

Standing of Teams.	W.	L.	Pct.
Kingston	3	1	.750
Greenpoint	2	1	.667
Brooklyn	2	1	.667
Paterson	2	1	.667
Yonkers	0	2	.000
Trenton	0	3	.000

## Schedule For This Week.

Wednesday, January 14, Yonkers  
at Kingston.

Friday, January 16—Paterson at  
Trenton.

Saturday, January 17—Green-  
point at Paterson. Kingston at Yon-  
kers.

Sunday, January 18—Paterson at  
Brooklyn. Trenton at Greenpoint.

## Ten Leading Point Scorers.

meeting of the league held at	opened
el McAlpin Monday it was de-	resor
make a radical departure in	Kn
s for the second time	

## Time Out for Fouls.

At a meeting of the league held at  
the Hotel McAlpin Monday it was  
decided to make a radical departure in  
the rules for the second half. The  
committing of fouls has been greatly  
increasing, with a decreasing amount  
of time for the actual playing of the  
game. Because of the tendency of  
the players to foul unnecessarily it  
was felt by the managers that the  
taking out of time on all fouls here-  
after would not only tend to lessen  
the number of fouls committed, but  
also provide a full forty minutes for  
the actual playing of the game which  
in the final summation is what the  
adherents of the sport are paying for  
and expecting. To speed up the con-  
test, hereafter starting with the Yon-  
kers-Kingston game at Kingston on  
Wednesday night January 14th, time  
will be taken out on all fouls from  
the moment the offense is called by  
the referee until the moment the ball  
leaves the player's hand on the foul  
line. If this does not eliminate con-  
siderable unnecessary fouling, more  
stringent steps will be adopted later,  
but at any rate this new move will  
receive a thorough trial and will be  
watched with interest as to its final  
development.

## Terris Meets Goodrich.

By Telegraph to The Freeman.  
New York, Jan. 13.—Sid Terris,  
one of the leading candidates for  
the lightweight title will make his  
reappearance in the ring tonight  
when he meets Jimmy Goodrich of  
Buffalo, at the Pioneer A. C. in a  
postponed bout of 12 rounds. Terris  
was scheduled to face Goodrich  
more than a month ago, but claimed  
an injured hand. The state athletic  
commission failed to see it that way  
however, and gave Terris the alterna-  
tive of meeting Goodrich at a later  
date or suffering a suspension.

## Flowers Favored To Win.

By Telegraph to The Freeman.  
New York, Jan. 12.—Tiger  
Flowers, Atlanta negro middleweight,  
ruled a 2 to 1 favorite today to de-  
feat Jack Delaney of Bridgeport,  
Conn., in their 12 round bout at  
Madison Square Garden on Friday  
night. Delaney has requested that  
he be given a championship match  
with Larry Estridge as a sparring  
partner in order to accustom him-  
self to the southpaw style of fighting,  
which Flowers uses occasionally.

## Brockman Named Captain

R. N. Brockman '24, of Tulsa, Okla.,  
185-pound guard on the University of  
Oklahoma football team for the past  
two years, has been unanimously elect-  
ed captain of the 1925 squad. Brock-  
man is one of the finest men on the  
team, and his defense work was one  
of the outstanding features of the  
Oklahoma 1924 football season. Team-  
mate Ray Baker '23, guard, told  
Brockman helped to make the right  
side of Oklahoma's line almost in-  
vincible.

## Two Noted Athletes From Centre

Bo McMillan, coach, and Sully Montgomery, left tackle of the Centre col-  
lege football team. The latter, who left college to go into the prize ring, has  
made good, winning all of his startling bouts to date.

## Sporting Squibs

Give basketball an inch and it will  
take a whole gymnasium.

Pacific coast baseball season will  
start Tuesday, April 7, 1925.

Bill Johnston, famous tennis player,  
was thirty years old November 2.

The Haskell Indian football player  
named Kicks-His-Wife ought to be a  
good runner.

In Spain and Mexico bull fighting is  
conducted under the most exacting  
sport rules in existence.

Now that he is a seasoned scrapper,  
Pepper Martin has become hot stuff in  
the bantamweight ranks.

Four Montreal athletic and college  
organizations promote skiing for  
French-Canadian members.

Salsbury Country club, Garden  
City, L. I., will stage the national pub-  
lic links tournament in 1925.

A golf school de luxe has been  
opened on the roof of one of the big  
resort hotels in southern California.

Knut K. Rockne, coach of Notre  
Dame football eleven, is professor of  
chemistry in the South Bend institu-  
tion.

At the annual banquet of the Yale  
varsity cross-country squad, M. L.  
Smith, '27, was elected captain for  
next year.

Sherwood Magee, outfielder, has  
been signed by the Milwaukee club of  
the American association. He will be  
used as a pinch hitter.

Catcher Wally Schang says Beall,  
the Yankee's rookie pitcher, has a  
better curve ball than any right-hander  
in the American league.

C. S. Moore, '28, of Englewood, N.  
J., has been elected captain of the  
1925 varsity football team of Amherst  
college at the recent annual banquet.

Johnny Behm of Cleveland, Ohio,  
quarterback on the Iowa State college  
eleven during the last two seasons,  
has been elected captain of the 1925  
squad.

In England baseball is accepted as  
a game similar to "rounders," the  
catcher's glove looking to Englishmen  
like an automobile cushion and the  
mask like a bird cage.

## Sylvester Turns Pro

Mick Sylvester of Chicago, who  
has held the National A. A. C. cham-  
pionship at 115 pounds, is now looked  
upon as the next bantamweight cham-  
pion of the world by boxing critics of  
the Middle West, who have been  
watching him since he turned to the  
pro ranks. He is only eighteen years  
of age, and has won his last ten fights  
with ease. Harry Foxworth, former  
champion of the world and his man-  
ager, Buck Montgomery, have him in  
mind, contending that with a few more  
wins he will be ready for big game.

## No Room for Lafayette

Pennsylvania has played its last  
football game with Lafayette for at  
least several years. This was made  
known when several members of  
the Red and Blue football committee  
said that owing to the plans to play Notre  
Dame and Brown next fall, there will  
be no room for Lafayette on the  
schedule.

With the exception of Joe Laird,  
who scored the winning touchdown,  
and Eald Thomas, all the Penn men  
came out of the hard game against  
the Eastons in good shape. Laird  
played the entire second half with his  
collar bone badly bruised.

## Number of Home Runs

for 1924 Falls Off  
Wheat, corn, stocks, bonds  
and Scotch are may be up, but  
home runs are down—way  
down.

Reports of the American  
league show alarming short-  
age.

American league batters  
made 477 home-runners in 1921.  
524 in 1922, 441 in 1923 and  
only 305 in 1924.

The Yankees, who clubbed  
115 in 1924, 134 in 1921, 111 in  
1922 and 105 in 1923, fell below  
the 100 mark in 1924 and made  
only 92.

Perhaps it's the pitching, per-  
haps it's the ball, but the fact is  
that the festive home-runners, just  
as popular as ever, isn't as ex-  
traneous as formerly.

DANCING AFTER THE GAME.

## Nurmi Will Not Turn "Pro"

Walsh Says Flying Finn is Too Smart  
To Accept a Rickard Offer—Nur-  
mi's Career Shot If He Turns Pro-  
fessional.

(By Davis J. Walsh.)  
By Telegraph to The Freeman.

New York, Jan. 13.—According to  
advice at hand, Paavo Nurmi will  
indulge himself in the satisfaction  
of spurning the leering villain's gold  
today. He will be approached, it is  
said, by agents of our Mr. Rickard  
or by the gentleman himself with an  
offer to turn professional and so, it is  
alleged, will Joie Ray, Jimmy Con-  
nelly and a few more of the leading  
amateur middle distance runners.

Our Mr. Rickard, it seems, saw \$40,-  
000 worth of public ease into Mad-  
ison Square Garden for the Nurmi de-  
but last week and thinks that some-  
thing should be done about it.

Show our Mr. Rickard an orphaned  
dollar and he'll show you a nice,  
warm pocket.

"I haven't seen Nurmi yet but I'm  
going to look him up right away" he  
was quoted as saying last night. "I  
can show him how to make a lot of  
money running as a professional."

The writer might mention also  
that he can show Mr. Rickard how  
to save himself a lot of trouble.  
Paavo Nurmi will not turn "pro."

It was not necessary for Hugo Quist,  
his man of business, and other  
friends to issue statements today to  
this effect when Nurmi himself  
couldn't be reached.

The Finn is far too smart to fol-  
low this golden mirage. He has only  
to look toward Helsinki where  
Hannes Kolehmainen is still a man  
of public prominence, in spite of the  
fact that he is athletically as good  
as Hannes, never got himself  
very much as a professional.

What of the case of Dorando. He  
probably didn't buy many barber  
shops with the money he got when he  
and Johnny Hayes turned "pro" for a  
special Marathon race in the Garden.  
It was all right while the fever lasted  
but professional foot racing was over  
of meeting popularity and the tem-  
porary rewards not sufficient to make  
up for lost prestige.

Nurmi knows. He knows that  
he would reach the end of the  
rainbow in a few short months when  
the novelty of the thing had worn off.  
So do Joie Ray, Connelly and other  
American runners. A few thousand  
dollars for their efforts and they  
would be all over and done with.

Nurmi could less afford the venture  
than the others however. The Ameri-  
can Olympic team of 1923 probably  
would be able to bear up bravely  
without Ray and Connelly, for they  
hardly will be in competition by that  
time. Not so Nurmi.

Finland looks for him to furnish  
the backbone of its team once more  
when the international games are  
held at Amsterdam, Holland. And  
considering what he stands for in  
Finland, Nurmi could not afford to  
run contrary to public expectations.

As an amateur, he has been made  
a national hero, with plans well un-  
derway to erect a statue of him in the  
principal public square of Helsin-  
fors. As a professional, he would be  
worth a dime a dozen to Finland.

## Tough Schedule Ahead for Nurmi

By Telegraph to The Freeman.  
New York, Jan. 12.—Athletic ex-  
perts were inclined to shake grave  
bonds over the decision of Paavo  
Nurmi to run in the special 2,000  
metre event in the Fordham games  
here on Saturday. His entry in this  
race means that Nurmi must follow  
his exacting schedule, beginning  
Thursday and ending Saturday:

8:30 Thursday: Special 2,000  
metre race at municipal games here.  
10:19 p. m. Thursday: Take train  
for Chicago.

3:30 p. m. Friday arrive at Chi-  
cago.

10 p. m. Friday take on Joie Ray  
and others in special mile and  
three-quarters race.

11 p. m. Friday. Take train for  
New York.

3:30 a. m. Saturday. arrive at  
New York.

11 p. m. Saturday. compete in  
special 2,000 metre race.

## St. Peter's Teams Add Another

Lyceum Squad Beat Liberty, 40 to  
23 and Juniors Downed St. Jo-  
seph's 33 to 12.

The St. Peter's Lyceum quintet  
turned the tables on the Liberty  
Five Monday evening at the St.  
Peter's court, avenging the defeat  
of Saturday night, winning by a 40  
to 23 tally.

Koenig and Murphy led the  
scorers, with 14 and 11 points re-  
spectively. The remaining Saints  
players put up a stiff defense, keep-  
ing the Liberty Five second best  
throughout. The score at half time  
saw the home club in front by a 26  
to 12 tally.

The St. Peter's team was penal-  
ized 25 times, while the visitors  
committed 12 fouls. Out of its total  
Liberty made good but seven and  
the Saints four.

The score:

Liberty.	F.G.	F.P.	T.P.
Bullock, rf.	1	1	3
Grooming, lf.	1	2	4
Kane, c.	1	1	3
Knapp, rg.	2	2	6
Parsons, lg.	2	1	5
Totals	8	7	23

St. Peter's.	F.G.	F.P.	T.P.
Murphy, lf.	5	1	11
Koenig, rf.	6	2	14
Bruck, c.	4	0	8
Thurin, lg.	1	1	3
Wenzel, rg.	2	0	4
Totals	18	4	40

Score at end of first half—St.  
Peter's 26; Liberty 12. Fouls com-  
mitted—St. Peter's 25; Liberty 12.  
Referee—M. Husta.

Juniors Add Another.  
In the preliminary game the St.  
Peter's Junior squad defeated the St.  
Joseph Five by a 33 to 12 tally.  
The home team got away to a good  
start and was never headed.

St. Peter's Jr.

St. Joseph's.	F.G.	F.P.	T.P.
